

Why WRAP?

1

THE LARGEST INDEPENDENT CERTIFICATION PROGRAM

WRAP is the largest third-party certification program for the sewn products sector. A nonprofit global organization with 20+ years of experience in social compliance, WRAP has staff ready to help facilities all over the world.

2

WIDELY RECOGNIZED & ACCEPTED

A WRAP certification is accepted by most buyers (see the next page for examples of buyers accepting WRAP, with links providing specific details which can change from buyer to buyer). A facility can satisfy multiple clients with a single WRAP audit.

3

CERTIFICATION PROVIDES ASSURANCE

WRAP is a certification program. By achieving a WRAP certificate, you show current and future buyers that your facility meets or exceeds internationally recognized standards for social compliance.

4

RAISE YOUR PROFILE

All WRAP-certified facilities have the option to be listed on WRAP's website, permitting buyers to locate your facility and see it is WRAP-certified. Facilities have the option of using an approved "WRAP Certified Facility" logo on your website and promotional materials.

5

GLOBAL PRESENCE

WRAP has a global network of approved monitors, with WRAP-trained and APSCA-accredited auditors ensuring the highest standards for your audit.

6

AN ENGAGED PARTNER

A WRAP audit may identify corrective actions resulting in a corrective action plan, so you know what is required to complete the audit and obtain a WRAP certification.

7

SECURING YOUR SUPPLY CHAIN

A WRAP certification also includes Principle 12, Security, which is benchmarked to the minimum-security requirements under the CTPAT program. This can avoid the need for a separate supply chain security audit. Recently, Walmart began accepting WRAP certificates to fulfill its requirements for Supply Chain Security, in addition to Responsible Sourcing. WRAP is the only third-party certification program recognized by Walmart in both categories.

8

VALUE YOU CAN BELIEVE IN

WRAP's registration fee is only U.S. \$1195, and auditor fees are comparable to other programs based on facility size.

9

QUALITY YOU CAN TRUST

No other program provides the same level of support and quality control as WRAP.

The Choice is Clear - WRAP!
